

aG GAMES

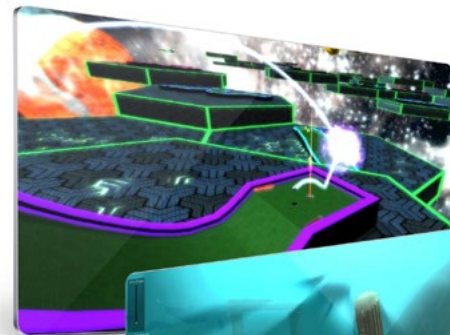

MINI GOLF

Introducing three putting games certain to redefine indoor and outdoor mini golf. These are sure to be a hit for the entire family. With many more games to come, aboutGOLF MiniGolf is just the start of our world class games.

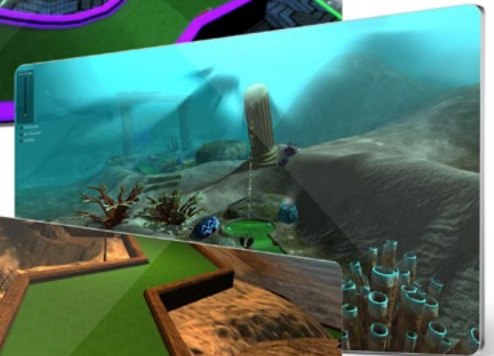

GALACTIC GREENS

The only known miniature golf course in the Universe. Flying space ships may scoop up your ball, secret lasers might zap your ball's energy, or an energizer may give your ball the extra boost it needs to get around the next corner. The Enterprise would have loved to discover this world of fun!

MYSTERY REEF

A course curious to the Puffer Fish and the Giant Blue Sea Crab. Your ball may be propelled by an air jet's bubbles and will surely be challenged by the ramps and banks within the sea floor bottom.

LOST LAGOON

18 of the most creative holes ever to be played in the South Seas. The Lost Lagoon golf course has many challenges where the sharks swim, sand crabs forage for dinner, and as evening approaches the Tiki lanterns and crackling campfire keep the game going into the night.
